EXPERIENCE

Ideum Inc, Corrales, NM – 7+ years

- **Managing Senior Developer**

November 2021 - Present

Responsibilities include: managing a team of Unity and interdisciplinary developers, HR activities such as hiring and project allocations, helping lead the developer team and programming high level projects, keeping internal developer tools up to date.

- **Software Developer 2**

September 2020 - November 2021

Increased responsibilities such as project allocations and business development meetings. Increased the amount of projects I was responsible for by a substantial amount.

- **Software Developer 1**

May 2017 - September 2020

Software Developer in charge of writing touch table applications, software testing, as well as upkeep of the company website.

University of New Mexico, Albuquerque, NM — Computer Science Tutor – 2 years

August 2015 - May 2017

Hired by the IFDM program to help tutor students in the CS 101 Javascript course.

Tau Technologies, Albuquerque, NM — Student Intern

Summer 2015

Student intern in charge of writing small programs in Java and JavaFX, as well as researching shaders for graphical simulations.

Java, JavaFX, C, Python, Haskell & functional programming ★★★★★

Laravel, Vue, Ruby on Rails, Node.js, Grav ★★★★★

EDUCATION

University of New Mexico, Albuquerque, NM — *Bachelor of Science in Computer Science*

August 2013 - May 2018

Received a Bachelor of Science in Computer Science with a minor in Interdisciplinary Film and Digital Media (IFDM).

Overall GPA: 3.80

Department GPA: 3.842

Central New Mexico Community College, Albuquerque

Dual credit Algebra class in high school as well as summer Calculus classes during college.

SCHOLASTIC ACHIEVEMENTS

- Dean's List 6 of 10 semesters
- Member of the National Society of Collegiate Scholars
- Member of the IFDM, Interdisciplinary Film and Digital Media
- Awarded the Go Getter's Scholarship (2013-2014)
- Awarded the SOE Scholarship for Freshmen (2013-2014).
- Awarded the Computer Science Van Dyke Scholarship (2014-2015)
- Awarded the Engineering Ambassador/Scholar Scholarship (2014 - 2018)

PROJECTS

The projects listed below are only a small subset.

Chelan County PUD — Ideum 23-2024

Created a 3x3 touch wall experience for a utilities company in Chelan Washington to teach people about the different types of rebates they could apply for, while being eye catching and a representation of the town itself. This application included many moving parts, animations, and logic to change the UI based on the seasons.

Da Vinci Science Center — Ideum 2023

Created a large-scale application for the Da Vinci Science Center where users can use one of the nine kiosks to take a selfie, complete the specific activity (making a self portrait / make a flying machine / create a fit kid), and then send their "creation" to the 50 x 60 foot projected screen to see their creation integrated into a larger than life 3D scene.

REFERRALS

Kyle Fitzpatrick

Ex Director of Software

(505) 702-3809

Rebecca Schreckengast

Director of Creative Services

rebecca.shreckengast@ideum.com

(412) 715-6524

George Hardebeck

Director of Media Systems

george.hardebeck@ideum.com

(571) 921-2240

Collins Experience Center — Ideum 19-2022

Created a touch table / tablet experience for Collins Aerospace so that they could have presenter curated tours with potential customers, whilst showing them all of their products. The application included one presenter station and four user stations.

Colonial Williamsburg Art & Map Explorer — Ideum 21-2022

Created a touch table application that loaded external historical images and json data into a well-polished and visually pleasing UI so that users could explore art and maps that were in the museum, as well as not on the exhibit floor.

Valle de Oro Wildlife Refuge — Ideum 19 - 2021

Worked on all touch interactives displayed in the new Valle de Oro Wildlife Refuge in Albuquerque, New Mexico.

California Science Center - Life! Beginnings — Ideum 2020

Created an embryo life stage matching game to teach children about the different stages of growth of a select number of animal embryos.

ABQ BioPark Penguin Exhibit— Ideum 2019

Created 2 of the 5 touch interactives displayed in the new penguin exhibit at the ABQ BioPark.

Qualcomm & XPRIZE Exhibit — Ideum 2018-20

Created a futuristic medical application for a collaboration with Qualcomm and XPRIZE. The application was featured in 5 US science centers.

Smithsonian - African Art — Ideum 2019-20

Co-created an application that features over 200 pieces of beautiful African art, created by African artists. Featured in the Smithsonian National Museum of African Art.

Sherwin Miller - Synagogues — Ideum 2019

Created a dual monitor touch application that features over 600 360° panoramas of Synagogues from around the world. Featured in the Sherwin Miller Museum of Jewish Art, ranked 2nd best Jewish museum in the US.
